

For a Sweet Kitchen

Use **CRISCO**
For Frying—For Shortening
For Cake Making

When you fry with Crisco you have a kitchen free of smoke. And there is no odor from the fat.

Crisco does not smoke at frying temperature; you need not wait until it becomes "smoking hot." In deep frying, test for proper temperature with bread crumb or bit of dough before placing the food into the hot Crisco.

There will be no more burned specks in the food. Foods fried in Crisco are more wholesome; the crust forms immediately and then the inside bakes instead of soaks.

Crisco is all vegetable. It is a rich fat that readily digests. It is used not only for frying and shortening in place of lard, but for rich cakes in place of butter. Less is used in each recipe, because Crisco is so much richer. It stays fresh and pure in ordinary room temperature.

Eggs fried in Crisco have a new taste which is delightful.

WEDDING BELLS RING OUT GLADLY AT HONEYSHUCK

(CONTINUED FROM PAGE ONE)

Summit Point, West Va., sisters of the groom; Miss Jean Roberts, Alexandria, Virginia; Miss Murray Sanderson, Bowling Green; Miss Anne and Miss Susan Bennett, Kansas City. Paul Thomson, brother of the groom, will act as best man. Speaker Clark will give his daughter in marriage.

All gowns worn by the bride and her attendants are to be simple, in keeping with the out-of-doors setting of the ceremony. The bride's dress is a satin, veiled in illusion. The Clarks had issued a general invitation to all Missourians to be present and every train coming in yesterday afternoon and this morning brought scores of guests. Citizens also drove to Bowling Green from all parts of Pike county. On the lawn west of the Clark home, a large dance pavilion had been built for the entertainment of the guests after the wedding.

Gold, silver, gems, valuable rugs and lace, furniture, cut glass and numerous other gifts comprise the vast collection of presents assembled in the Clark home. Two compotiers of hand wrought silver, lined with

gold, were the gift of President Wilson. The compotiers were ten inches high. Two American Eagles hold laurel wreaths in their beaks for handles. Two cupids on the sides support the laurel decked medallions.

The house of representatives' gift was a necklace of diamonds containing seventy-six stones. The Missouri delegation in congress sent a solid silver floral centerpiece. It was selected by Senator Stone. On one side, Miss Clark's monogram is engraved. The other side reads:

"Genevieve Chahup Clark, Presented by her father's colleagues in the senate and house from Missouri, June 30, 1915."

Pike County folks sent a case of flat silverware, while the citizens of Bowling Green presented an oil painting of a Missouri rural scene done by a Kansas City artist. Hundreds of other presents, too numerous to detail, were received.

After a wedding trip to Northern resorts, Mr. and Mrs. Thomson will return to New Orleans.

An incident this morning was the receipt of a congratulatory telegram from Mrs. W. J. Bryan. Among the presents displayed was a three-thousand foot movie reel of the movements of the groom's party from New Orleans and scenes and incidents of the rehearsal which took place last night. The marriage license was procured this morning by Paul Thomson, brother of the groom. According to the license the bride will be nineteen years old in August. The groom is about twenty-one years her senior. Every hotel was crowded today and visitors were entertained at homes of residents.

DOG TAX DUE.

Dog tax for 1915 will be due July 1st. Owners of dogs will do well to call at police headquarters during the first week of July and secure a 1915 tag, otherwise the dog catcher will take your dog up.

Asquith Urges Policy

of Pennywise Economy.

London, June 30.—Pennywise economy heretofore has not been a strong feature of the gatherings at the Guild hall, so closely connected with abnegation of the pleasures of life. But Premier Asquith today chose this home of wealth to initiate a movement in support of the British war loan and to urge personal thrift throughout the nation, so as to make it possible for the country to bear the strain of the expenditure of 15,000,000 daily, entailed by the cost of war.

Turning to the necessity for thrift, Mr. Asquith remarked:

"Waste on the part of either individuals or classes which always is foolish and short-sighted, is in these times nothing short of a national danger."

Fluids to Melt Fences.

Warsaw, June 30.—The use of burning fluids by the Germans on this front is apparently restricted to the purpose of melting down barbed wire entanglements, for which this method is efficacious.

The equipment consists of a metal cylinder filled with a mixture of benzine and kerosene at a pressure of 75 pounds to the inch. A turn of the handle liberates a jet of burning fluid fifteen feet in length, which fuses a path through the entanglements cutting down all wire obstruction like a scythe.

Retreat of Russian Armies is Still On.

London, June 30.—Driven back over their own frontier north of Lemberg and forced to cross the river Galia, the Russian armies continue to retreat before the Austro-Germans along a front of approximately 250 miles, about equal to the distance between Arras and the Vosges.

The Berlin official communication record progress by the Teuton troops in virtually the entire southeastern theater, although violent fighting is still in progress beyond the Gnila Lipa which joins the Dniester at Hailch.

The Russians now are making their stand on the Bug river. This great stream which offers many advantages for a strong defense runs near Zloczow in Galicia, runs almost north, forms a great part of the eastern frontier of Russian-Poland and joins the Vistula eighteen miles northwest of Warsaw. It is along the Galician course that the army of Grand Duke Nicholas is believed to have taken up strong positions, the loss of which would mean the further retirement of the Russian forces. The masses of Austrian and German troops are advancing along their entire front, in

SAYS HOMEOPATHY SHORTENS DISEASE

SEVEN MILLIONS PATIENTS BEING CARED FOR BY HOMEOPATHISTS, SAYS COPELAND

(By Associated Press.)

Chicago, June 30.—Dr. Royal S. Copeland of New York, chairman of the Bureau of Homeopathy of the American Institute of Homeopathy in an address before the institute declared that the mortality rate of homeopathic practice is far lower than that of any other school.

"We believe that homeopathy shortens disease, lessens human suffering and prolongs life," he said. "These facts, if they be facts, should be given to society. It is positively criminal to neglect the promulgation of any knowledge that will materially benefit the human race."

Dr. Copeland estimated that at least seven million Americans are being cared for by homeopathic doctors, a number, he said, equal to the adherents of any of the leading religious denominations. He added:

"If homeopathy were as well organized as one of these bodies, it would move forward irresistibly."

the southeast forcing the Russians before them in a broad sweeping movement, and in the northeast pushing forward with Warsaw, the Polish capital as their objective.

War Situation.

London, June 30.—Eastern Campaign: Russian retreat continues.

Western Campaign: French are making slow progress.

Southern Campaign: Situation unchanged.

Submarines: Inactive.

Dardanelles: Quiet.

As to Peace Terms.

London, June 30.—David Mason, a liberal member of the house of commons, for Coventry has given notice that he will ask Premier Asquith in the house, "whether, in view of certain speeches by some members of the German parliament demanding a speedy and honorable peace, his majesty's government will consider the advisability of stating more specifically than heretofore, the terms upon which such a peace would be possible, with the object of hastening such a happy consummation."

WHEAT BEST SINCE COUNTRY'S OPENING

Oklahoma City, June 30.—"Nearly all of the wheat in Kiowa county and other southwestern counties is out and in the shock," said State Senator O. J. Logan of Hobart while a caller at the state board of agriculture today. "We had about ten days of dry weather right at the harvest time, continued the senator. "Wheat in the southwest is the best since the opening."

BUILDING TRADES STRIKE ON THURSDAY

(By Associated Press.)

Chicago, June 30.—A general shut-down of all allied building construction and material interests will go

into effect tomorrow, throwing two hundred thousand men out of employment.

All plants will remain closed, until a complete settlement is reached with organized labor in the building industry.

A masterpiece of thrilling dramatic interest, "The Silent Command," featuring Robert Leonard and Ella Hall. Laemmle 4-reel drama. A creepy, thrilling story of love, hypnotism, jealousy and crime. A clever and unscrupulous doctor uses his occult power to cause trouble and death in a peaceful household. He is finally foiled and brought to account through the cleverness of a brilliant young lawyer.

Thursday, July 1.
Five reels today. Three-reel feature, released by the Pathé exchange. "In His Mind's Eye." A pathetic Big 11 drama with Murdoch MacQuarrie and Agnes Vernon in the leading roles. Supported by Florida Simon, M. K. Wilson and Harold Alward. Violent, marries wealthy woman upon his wife's death. Years pass. She proves unfaithful to him and blinds him with a lighted lamp when he protests. Touching finale to gripping story, written by Bea Meredith and produced by Charles Gilbey.

"The Struggle." Box drama, featuring Pauline Biala.
"How Billy Got His Raise." Bill, the office boy, wants a raise. He studies hypnotism and evengalizes the boss, the boss's wife and the office stenographer until they do his bidding. Max Asher, Gale Henry, William Frayne and Lillian Peaceock split a carload of fun in Joker comedy.
